## **Seniors Home Supports Program (SHSP)**

This program gives seniors referrals for vetted service providers. Seniors are not charged for referrals, but they will pay a fee to the service provider for completing the work. Six seniors organizations are working together to provide this coordinated system that serves all areas of Edmonton.

The scope of the [Seniors Home Supports Program](#) is:

- Snow Removal: remove snow and put down de-icer
- Housekeeping: clean floors, clean bathrooms, do laundry, dust, clean fridge
- Personal Services: hair care, foot care, home and respite care (personal care, homemaking, nursing care, companionship, accompanied transportation)
- Moving Help: organizing, junk removal, downsizing
- Home Repair and Maintenance: electrical, plumbing, painting, appliance repair, handyman, roofing/eavestroughs, deck and railing repairs, window cleaning
- Yard Help: mow lawn and do spring/fall clean-up including tree removal, trimming, etc. and gate, sidewalk and concrete repair

In addition to the call for an expanded scope, meeting the needs of low-income seniors who cannot afford to pay even the lowest rates for services has also been identified as an area of focus. A pilot subsidy program is being developed to help seniors pay for snow removal in the fall of 2018 and the winter of 2019. Assessment criteria, subsidy amount limits, application processes and allocation methods for the program will be developed.

At SWESA, Barbara Newell is our dedicated SHSP Coordinator. Barb is often in the community, meeting with service providers and seniors. You can usually find her at the Yellowbird East Community Centre most Mondays.

Contact Barbara at 780-860-2931 or email [hs@swedmontonseniors.ca](mailto:hs@swedmontonseniors.ca) to learn more or to attend her free information sessions as listed in this program guide.

### **Fraud Prevention**

Fraud affects everyone regardless of age or ethnicity. Fraudsters develop elaborate stories and scenarios to make you believe they are legitimate. Fraud can happen by phone, mail, in person, or, less commonly, the Internet. Studies show con artists are more likely to target senior citizens than other age groups, because they believe seniors are more susceptible to such scams. The need for fraud prevention has become greater than ever, and SWESA has arranged to bring you proactive information from Detective Linda Herczeg with the Economic Crimes Section of the Edmonton Police Service.

### **Investing in Emerging Markets**

Emerging market stocks were the best performers in 2017. Many financial institutions are recommending that clients increase these investments in their retirement portfolios. As well, large pension plans, including the Canada Pension Plan, are adding exposure from these markets. Emerging markets are projected to represent 39% of the global stock market by 2030. While valuations look reasonable, the investment composition has changed significantly over the past eight years; they have evolved into technology and consumer-focused economies and away from energy and materials-focused economies. Because of these sector changes, the investment risk level between emerging market stocks and American/European stocks has narrowed considerably. Come join Wei Woo as we discuss how to incorporate these investments into your retirement strategy.

### **Mindful Investing: How to Weather and Prosper in Fragile Markets**

The market crisis in 2008-2009 was a difficult time for investors. We saw many people panic and make reactive decisions based on their emotions. For the last 100 years, the markets went through a downturn every five to seven years. In 2015, we experienced another major downturn with the oil crisis with 2016 and 2017 being good years. However, we are now in the late market cycle stage and in one of the longest running global bull markets. The key is to not shy away from investing when you still need to receive dividends or interest for your retirement income. Learn how to protect cash flow when the markets stall or go negative.

Investing is emotional, because it involves more than just your financial wellbeing. A bad investment decision can wipe out your retirement nest egg or your children's education fund. Investing is complex and more difficult than a lot of things we do on a regular basis. Join Wei Woo as he discusses how to avoid making common investment mistakes during the retirement years.

### **Indigenous Women in Canada**

In the 17<sup>th</sup> century, some indigenous women responded to the teaching of the Jesuit missionaries and found opportunity in the Catholic faith. In the fur trade era, not only were indigenous women crucial to the survival and success of the European traders, but some women used the opportunities provided by the fur trade to enhance their lives. Some indigenous women married French or Scottish fur traders and helped to create a new people, the Métis. Changing attitudes and legislation in the 19<sup>th</sup> and 20<sup>th</sup> centuries led to challenges and difficulties, but indigenous women have continued to meet these challenges and build lives for themselves and their children. The stories that will be shared with us are numerous and complex. Let's explore with Dr. Carolee Pollock, assistant professor of history, the Department of Humanities at MacEwan University.
